Sorted by: Created ascending

1–25 of 25 as at: 08/Feb/26 12:40 AM

T	Key	Summary	Description	Parent
	SF-26	1.1 - Database schema & migrations	As a developer I want database migrations So that the schema can be created consistently across environments Acceptance Criteria • All tables are created successfully • One command sets up the schema from scratch	 Epic 0: Project Setup, Research & Agile Planning
	SF-27	1.2 - Seed master data	As a developer I want to prepopulate master data So that search and booking can be tested immediately Acceptance Criteria • Airlines, destinations, routes created • Flight models with seat mapping added • Flights and flight schedules seeded • Data visible via DB queries / APIs	 Epic 0: Project Setup, Research & Agile Planning
	SF-29	2.1 – User registration	As a user I want to create an account So that I can book flights Acceptance Criteria • Email is unique • Required fields validated • User account created successfully	 EPIC 2: User & Authentication
	SF-30	2.2 – User login	As a user I want to log in So that I can access booking features Acceptance Criteria • Valid credentials allow login • Invalid credentials show error • Session / token created	 EPIC 2: User & Authentication
	SF-31	2.3 – User logout	As a user I want to log out So that my session is secure Acceptance Criteria • Session / token invalidated • User redirected to login	 EPIC 2: User & Authentication
	SF-32	2.4 – Update profile	As a user I want to update my profile So that my details stay current Acceptance Criteria • Profile fields updated successfully • Changes persist after reload	 EPIC 2: User & Authentication
	SF-34	3.1 – Search one-way flights	As a user I want to search one-way flights So that I can see available flights across airlines Acceptance Criteria • From, to, date are mandatory • Results include airline, flight code, time • Message shown if no flights available	 EPIC 3: Flight Search (Multi-Airline)

T	Key	Summary	Description	Parent
	SF-35	3.2 – Search return flights	As a user I want to search return flights So that I can plan a round trip Acceptance Criteria - Return date ≥ departure date - Outbound and return flights displayed	 EPIC 3: Flight Search (Multi-Airline)
	SF-36	3.3 – View flight schedule details	As a user I want to view flight details So that I can decide before booking Acceptance Criteria - Shows airline, route, date, time, model - Data matches selected schedule	 EPIC 3: Flight Search (Multi-Airline)
	SF-38	4.1 – Create booking	As a logged-in user I want to create a booking So that I can reserve a selected flight Acceptance Criteria - User must be logged in - Booking created with status PENDING - Booking reference generated	 EPIC 4: Booking Core
	SF-39	4.2 – View booking details	As a user I want to view my booking So that I can confirm travel details Acceptance Criteria - Only booking owner can view - Shows flight, route, date, status	 EPIC 4: Booking Core
	SF-40	4.3 – List my bookings	As a user I want to see all my bookings So that I can manage them Acceptance Criteria - Only user's bookings shown - Sorted by booking time or travel date	 EPIC 4: Booking Core
	SF-46	5.1 – Add passengers	As a user I want to add passenger details So that the booking has traveler information Acceptance Criteria - Required passenger fields validated - Passenger linked to booking	 EPIC 5: Passengers, Seats & Baggage
	SF-47	5.2 – View seat map	As a user I want to view seat availability So that I can choose seats Acceptance Criteria - Seat map loaded from flight model - Selected seats shown as unavailable	 EPIC 5: Passengers, Seats & Baggage
	SF-48	5.3 – Assign seat to passenger	As a user I want to assign seats So that each passenger has a seat Acceptance Criteria - Same seat cannot be assigned twice in one booking - Seat saved with passenger	 EPIC 5: Passengers, Seats & Baggage
	SF-49	5.4 – Add baggage quantity	As a user I want to add baggage quantity So that extra baggage cost can be calculated Acceptance Criteria	 EPIC 5: Passengers, Seats & Baggage

T	Key	Summary	Description	Parent
			• Baggage quantity ≥ 0 • Stored per passenger	
	SF-50	6.1 – Make payment	As a user I want to pay using card So that my booking is confirmed Acceptance Criteria • Credit / Debit card supported • Payment status SUCCESS / FAILED (mock) • Booking status updated accordingly	 EPIC 6: Payment (Mocked)
	SF-51	6.2 – View payment status	As a user I want to see payment status So that I know my booking state Acceptance Criteria • Payment status visible in booking view	 EPIC 6: Payment (Mocked)
	SF-52	7.1 – Generate ticket	As a user I want my ticket generated So that I can use it for travel Acceptance Criteria • Ticket includes booking ref, passengers, seats, flight details	 EPIC 7: Ticket Generation & Delivery
	SF-53	7.2 – Download / print ticket	As a user I want to download or print my ticket So that I can keep a copy Acceptance Criteria • Printable or downloadable format available	 EPIC 7: Ticket Generation & Delivery
	SF-54	7.3 – Email ticket	As a user I want my ticket emailed So that I can access it anytime Acceptance Criteria • Email sending simulated • Success message shown	 EPIC 7: Ticket Generation & Delivery
	SF-55	8.2 – Reschedule booking	As a user I want to reschedule my booking So that I can travel on another date Acceptance Criteria • New valid schedule selected • Booking updated successfully	 EPIC 8: Booking Changes
	SF-56	8.1 – Cancel booking	As a user I want to cancel my booking So that I can change plans Acceptance Criteria • Only owner can cancel • Status becomes CANCELLED	 EPIC 8: Booking Changes
	SF-57	9.1 – Assign airline admin	As a super admin I want to map users to airlines So that they can manage flights Acceptance Criteria • airline_user mapping created	 EPIC 9: Admin Management
	SF-58	9.2 – Manage flight schedules	As an airline admin I want to add/update/delete flight schedules So that search results stay accurate Acceptance Criteria	 EPIC 9: Admin Management

T	Key	Summary	Description	Parent
			• CRUD operations work • Deleted schedules not shown in search
